Professional Summary

Experienced Backend Engineer with over 5 years of experience in Java development, specialized in banking and financial systems. Expert in designing scalable and secure applications using Spring Boot, RESTful APIs, and workflow automation tools such as Flowable. Strong proficiency in database management, API design, DevOps practices, Domain-Driven Design, and Agile methodologies. Results-oriented professional focused on improving efficiency, security, and collaboration to deliver high-impact solutions for international clients.

Professional Experience

Java Developer

Proxym-IT, Sousse, Tunisia
2021 - Present

Product Team

- Developed modular banking components using Java 11 and Spring Boot, enabling smooth deployment for more than 10 clients and reducing integration time by 30%.
- Built a secure web MVC application (CSA) using Java 11 and JSF to optimize banking agents' daily operations.
- Applied Domain-Driven Design principles to create a robust and maintainable architecture.
- Integrated Flowable for workflow automation.
- Implemented Redis for caching, significantly reducing API response times.
- Wrote JUnit tests achieving 90% code coverage for critical modules.

Coris Bank International

- Developed front and back-office features using Java 17 and Spring Boot.
- Implemented Flowable workflows to automate approval processes, reducing processing delays.
- Managed database migrations (PostgreSQL to Oracle) using Liquibase with zero data loss.
- Developed a reusable export/import component (PDF, CSV, XLS).

International Bank for Commerce and Industry

- Integrated DocuBase APIs for document management.
- Implemented a cron scheduler for automated notifications to banking agents.

Central Bank of the Republic of Guinea

- Implemented a secure authentication process.
- Developed the "Forgot Password" feature with OTP verification.
- Integrated a module for local and international transfers.

Education

Computer Engineering

EPI - École Polytechnique Internationale, Sousse, Tunisia

Bachelor's Degree in Computer Science

Institut Supérieur d'Informatique Mahdia, Mahdia, Tunisia

Technical Skills

- **Languages** : Java (11/17), JavaScript, SQL
- **Frameworks** : Spring Boot, Flowable, JSF, Node.js, Angular
- **Databases** : PostgreSQL, Oracle, MongoDB, Redis
- **DevOps & Tools** : Docker, Kubernetes, Git, Keycloak, Liquibase, JUnit
- **Cloud & Security** : AWS (EC2, S3), OAuth2, Microservices, RESTful APIs

Additional Skills

- **Soft Skills** : Problem Solving, Teamwork, Agile Methodologies
- **Languages** : French (Fluent), English (Professional)
