Professional Summary

As an AI Orchestrator | Full Stack Engineer my journey has been focused on backend development, particularly in the finance sector. Our team has utilized my skills in Spring Framework to deliver robust applications that cater to our clients' complex needs. 5+ years of experience in banking and financial systems, with strong proficiency in Spring Boot, RESTful APIs, workflow automation with Flowable, database management, DevOps practices, Domain-Driven Design and Agile methodologies.

Professional Experience

Full Stack Engineer Proxym-IT, Sousse, Tunisia | 2021 - Present

Takka - Microfinance Platform (Backend & Back-office) 2026

Java 8, Spring Boot, Spring Data JPA, MapStruct, Firebase Cloud Messaging, PrimeFaces, Keycloak

- Integrated a partner financing API end to end (offers, merchants, branches, product categories) with dedicated controllers, services, mappers and DTOs behind a generic response wrapper.
- Migrated push notifications from OneSignal to Firebase Cloud Messaging with device-targeted sending.
- Triggered iScore credit reporting automatically when a customer's limit is activated.
- Built a new back-office module to activate customer limits (lazy-loaded customer table) and flagged partner transactions in manual interaction.

Comar - HAYETT Digital Platform (collective contracts)

Functional analysis, API design, back-office and customer-space scoping

- Analysed and specified the collective contracts module for the HAYETT customer space, including a work estimate.
- Designed secure subscriber / member profiles with strict data isolation between the employer and its employees.
- Designed back-office access management: temporary credentials with expiry, delivered by SMS and e-mail, with a full audit trail.
- Member self-service: savings balance and history, advances, performance and benefits tracking, and on-the-fly PDF employer certificate generation.

Product Team - Bankerise

Java 11, Spring Boot, JSF, Flowable, Redis, JUnit

- Developed modular banking components using Java 11 and Spring Boot, enabling smooth deployment for more than 10 clients and reducing integration time by 30%.
- Built a secure web MVC application (CSA) using Java 11 and JSF to optimize banking agents' daily operations.
- Applied Domain-Driven Design principles to create a robust and maintainable architecture.
- Integrated Flowable for workflow automation and Redis for caching, significantly reducing API response times.
- Wrote JUnit tests achieving 90% code coverage for critical modules.

Coris Bank International

Java 17, Spring Boot, Flowable, Liquibase, PostgreSQL, Oracle

- Developed front and back-office features using Java 17 and Spring Boot.
- Implemented Flowable workflows to automate approval processes, reducing processing delays.
- Managed database migrations (PostgreSQL to Oracle) using Liquibase with zero data loss.
- Developed a reusable export/import component (PDF, CSV, XLS).

International Bank for Commerce and Industry

- Integrated DocuBase APIs for document management.
- Implemented a cron scheduler for automated notifications to banking agents.

Central Bank of the Republic of Guinea

- Implemented a secure authentication process.
- Developed the "Forgot Password" feature with OTP verification.
- Integrated a module for local and international transfers.

Education

Computer Engineering - EPI, École Polytechnique Internationale, Sousse, Tunisia

Bachelor's Degree in Computer Science - Institut Supérieur d'Informatique Mahdia, Mahdia, Tunisia

Technical Skills

Languages: Java (8/11/17), JavaScript, SQL

Frameworks: Spring Boot, Spring Data JPA, Spring Security, Flowable, JSF / PrimeFaces, MapStruct, Node.js, Angular

Databases: PostgreSQL, Oracle, MongoDB, Redis

DevOps & Tools: Docker, Kubernetes, Git, GitLab CI, Keycloak, Liquibase, JUnit, Zipkin / Sleuth

Cloud & Security: AWS (EC2, S3), OAuth2, Microservices, RESTful APIs, Firebase Cloud Messaging

AI: AI-assisted development, Claude Code

Additional Skills

Soft Skills: Problem Solving, Teamwork, Agile Methodologies

Languages: French (Fluent), English (Professional)
